ASM IS AN ITALIAN LEADING MANUFACTURER OF COLOUR SORTERS WITH A GLOBAL PRESENCE IN MORE THAN 50 COUNTRIES WORLDWIDE.

ASM with over 30 years of experience in sorting technology is an Italian leading manufacturer of colour sorters, based in Bologna. All our devices are at the forefront of the sorting technology, ensuring maximum product purity and ease of use.

ASM offers the widest throughput range from few grams up to several tons per hour. All our machines are fully designed and manufactured in Italy.

Our technology combines innovative software features and data analysis, sorting products by colour, size, shape and texture. Even the most challenging applications (e.g. Foreign Material and Cross Contamination) can be settled with a combination of high performing True-Color cameras and SWIR Infrared sensor. We also ensure the maximum throughput per chute, with the widest chute on the market.
